

Activity Guide

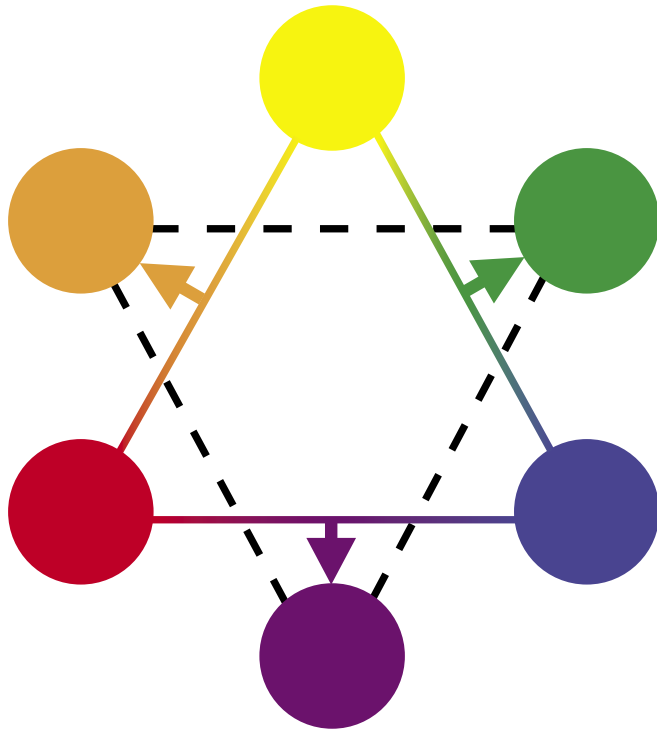

VICTOR VASARELY OP ART MASTER

Victor Vasarely artworks feature bold colors and geometric shapes. Explore the galleries and find the shapes found in the grid below.

Challenge yourself to see how quickly you can find and X-through one or more vertical, horizontal, or angled lines in the grid.

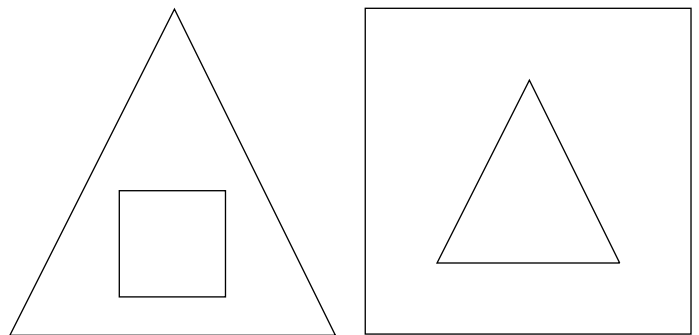

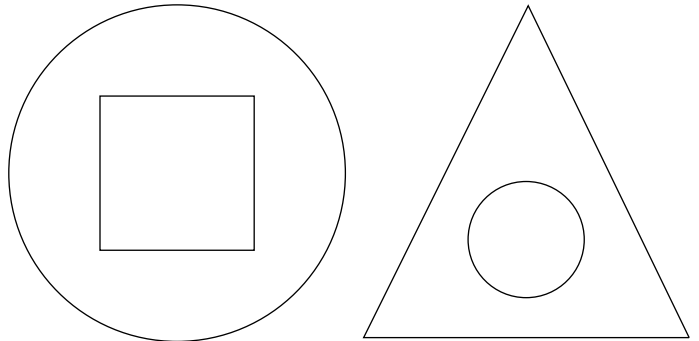

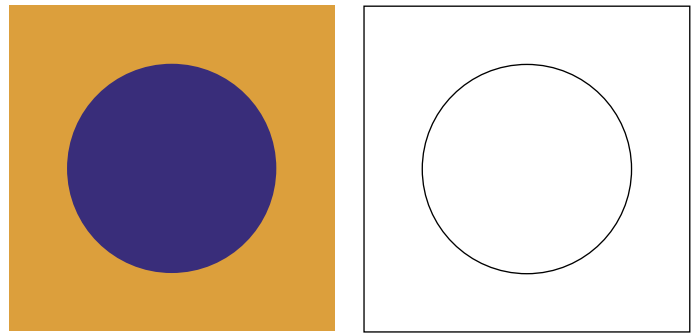

Basic Color Wheel

When complementary colors are placed side by side they seem to intensify. Complementary colors are used to create optical illusions.

Color some of the shapes below in complementary colors. Color others using non-complementary colors. What differences do you see?

Color Combination Tricks

Learn the tricks of combining colors by following these steps:

- Circle the primary colors - red, yellow, and blue - on the color wheel.
- Make the complementary color for each primary color by mixing the other two primary colors.

Green is the complementary color of red. It is created by mixing yellow and blue. "Mix" the other two complementary colors below.

_____ + _____ = _____

_____ + _____ = _____
